#### Student - Web Development Immersive

Washington, DC

January 2018 - May 2018

Full-time three month program focused on front and back end development including almost 500 hours of classes, labs, projects, and code review. Covered development and coding as an individual and in collaboration with a small team. The projects that I completed for this course are:

- Pyramids: A Tower of Hanoi inspired game (HTML/CSS/JavaScript)
- Liverpool-Links: A full stack application where supporters can post links to relevant team news or content as well as view match highlights and other videos. (MongoDB, Node, Express)
- Global Cup: A solution for managing local youth or recreational sports leagues. Have your users/coaches register their teams and list rosters of players. (React, MongoDB, Node, Express)
